SPRING 1998

Enhanced Performance System Patch Panels and Patch Cords

- Fully support Power Sum requirements, 1000Base-T and 622 Mbps ATM.
- Cables available in lengths of 3', 5', 7' and 10', with four connector styles.
- CCS installations are guaranteed with Leviton's Lifetime Warranty on Parts and Performance.

Part Numbers:

Patch Panels: 59484-A** and 59484-B**
(** = port count, 12, 16, 24, 32, 48, 64, & 96 ports)
Patch Cords: 52454-**L (** = 03, 05, 07, 10 ft. lengths)

For more information on the Leviton Enhanced Performance System, call 1-800-922-6229 for a free brochure.

MOS S-VIDEO AND RCA Snap-In Modules

- "No soldering required" design delivers unobstructed signal reception to audio/video connections.
- Compatible with Leviton's entire line of surface- and flush-mount Multimedia Outlet System (MOS) wallplates.

Part Numbers:

RCA Video Insert Module: 41291-1R*

S-Video Insert Module: 41291-1V*

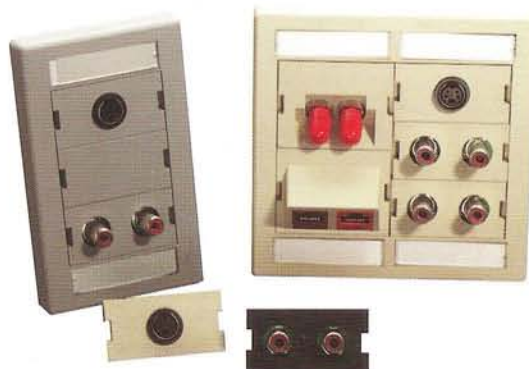

[* = color: Ivory (I), White (W), Grey (G), Black (E)]

CRIMSON RED JACK

- Fully compliant with TIA/EIA-568-A and TIA-606.
- Category 5 jack supports Power Sum and enhanced applications.

Part Numbers:

To order Voice Grade, Category 3 and Category 5 jacks in crimson red, use the letter C as the color designation (ie., a Category 5 crimson red jack is 41108-RC5). Please refer to our catalog or line card for a complete listing of part numbers.

The Leviton Telcom

extreme

Cabling System

Available Late 2nd Quarter 1998

Designed for future high-speed applications requiring Category 6/Class E performance.

1000Base-T

- A comprehensive line of products including patch panels, patch cords, and jacks.

- Available with a full lifetime warranty on parts and performance when installed as part of a Certified Cabling System.

622 Mbps ATM

Gigabit Speeds

ed with an assortment of **NEW PRODUCTS.**

NEWLY DESIGNED SURFACE MOUNT HOUSINGS

including a new 12-Port Version

- Mount to walls, floors and modular furniture with screws, tape or magnets.
- Compatible with all QuickPort® snap-in modules, which can be terminated directly in each port.
- Multiple raceway knockouts accommodate major brands.
- 12-port version is ideal for high-density MUTO applications.

Part Numbers:

2-, 4-, and 6-Port Housings 41089-**P

12-port Housing 41089-12*

[* = color: Ivory (I), White (W), Grey (G), Black (E)]

Visio Technical and Network Equipment with Leviton Telcom shapes bring the ease of drag-and-drop interface to Leviton CCS network specifiers and designers.

SINGLE- AND DUAL-GANG WALLPLATES WITH DESIGNATION WINDOWS

- Wallplates are fully compatible with all Leviton QuickPort® snap-in modules.
- Windows provide visible port and station ID.

Part Numbers:

Single-gang with 1, 2, 3, 4 & 6 ports; 42080-**S

Dual-gang with 1, 2, 3, 4, 6, 8 & 12 ports; 42080-**P

[* = color: Ivory (I), White (W), Grey (G), Black (E)]

SINGLE-GANG AND DUAL-GANG BACKBOXES IN TWO DEPTHS

- Easily adapt Leviton flush-mount MOS and QuickPort® wallplates for surface mounting.
- 2-piece (base and cover) backboxes are available in 1.45" and 1.89" depths for extra cable storage.
- Multiple raceway knockouts on sides and base.

Part Numbers:

Single-Gang 1.89" 42777-1*A; 1.45" Deep 42777-1*B

Dual-Gang 1.89" 42777-2*A; 1.45" Deep 42777-2*B

[* = color: Ivory (I), White (W), Grey (G), Black (E)]

Drag-and-Drop Simplicity for Network Design

- Design and specify workstations, telecommunications closets and equipment rooms easily.
- Over 250 exact replicas of Leviton shapes, including product descriptions and part numbers.
- Creates professional looking proposals, specifications and construction drawings.

Call Leviton Sales Support for ordering details and product information, 1-800-922-6229.

DON'T TRY MANAGING WITHOUT ONE

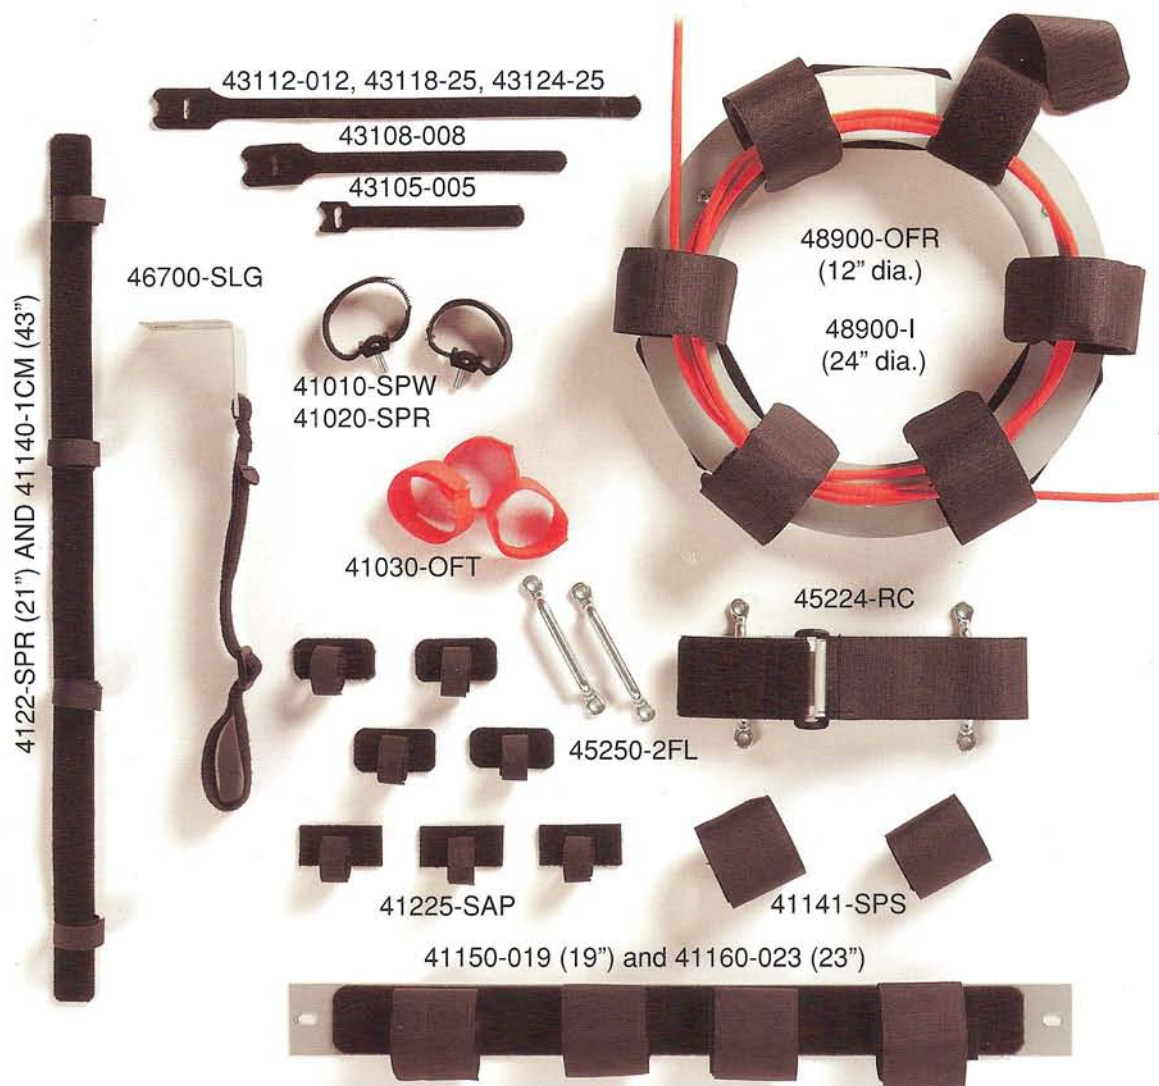

Leviton Telcom's extensive new line of SoftCinch® Velcro® Cable Management products are a smart alternative to traditional cable management systems. Space efficient and cost effective, Velcro never pinches cable, and helps ensure correct cable bend radius, thus ensuring a system's continual integrity.

SoftCinch Velcro products make adds, moves and changes easy and streamline cable management for:

- Fiber and copper cable
- Horizontal and vertical runs
- Patch panels and equipment racks and cabinets

Among the many products available are:

- **SpaceMaker:** ideal for adding cable management to existing racks, or where space is an issue.
- **PolyFiber Optic Ring:** an easy solution for managing fiber optic cable, storing a service loop up to 40' long.
- **WorkStation Line:** harnesses tangled cords and cables for the work area.
- **PolyRack:** manages vertical and horizontal cables on relay racks and cabinets.
- **PolyRiser:** holds vertical running cable.
- **PolySling:** Plenum-rated, Velcro J-hook.
