

When rack space is your most valuable real estate

Part # 41188-SM1

Build a cable management solution with The SpaceMaker.

- Requires no dedicated rack space—bracket mounts directly over existing equipment and distribution panels.
- Installs in front or back of rack.
- Secures and organizes cables with Velcro® loops to maintain proper bend radius.
- A low cost solution for areas where rack space is limited—in crowded telecommunications closets and equipment rooms.
- Fits any location and application—wall-mount brackets, free-standing racks and cabinets in new or retrofit projects.

For more information, visit your local datacom distributor or contact Leviton Telcom at **1.800.922.6229**.

SpaceMaker Cable Management

The best way to rack up some extra space.
